

SERVICES FOR EMPLOYERS

Thank you for reaching out to SAIT's Career Advancement Services (CAS). We offer a range of services in order to connect organizations like yours with skilled SAIT students and alumni looking to gain valuable industry connections and work opportunities.

My Career Hub

[My Career Hub](#) allows employers to advertise job opportunities to SAIT students and alumni for **free**.

With over 30,000 registered users, it's an easy and effective tool for sourcing great talent from SAIT. Job postings may be targeted to a specific school or program and aimed at either students or alumni (or both).

The site also contains a resource library with important links and resources about things like federal grants for hiring summer students, employer rights and responsibilities, and tips for writing an effective job ad.

Work Integrated Learning

Did you know that you can hire a practicum/co-op student, or that your organization can submit a project for one of our many capstone courses? To find out more about SAIT's work integrated learning (WIL) opportunities and how you can connect with our students in the classroom, contact our Work Integrated Learning team at WIL@sait.ca.

Industry Mentorship Program

Transform the future by sharing your professional expertise. Help shape a student's career path within your industry by becoming a mentor through SAIT's Industry Mentorship Program.

This 12-week program offers students the opportunity to develop communication and interpersonal skills, build a professional network, gain insight into workplace culture and explore potential career paths.

Mentoring is a meaningful way to share your experience and passion with a student eager to learn. In return, you'll grow your own leadership, coaching, and interpersonal skills. Mentors come from all career stages – whether you're just starting out or well-established in your field, your insights are valuable. From technical expertise to professional perspectives, your guidance can help a student prepare for their next step. Learn more and [become a mentor](#).
